B4BE[E]-6-60 4G/5G Bracket Antenna PANORAMA (2) ANTENNAS

B4BE[E]-6-60

- •Cost Effective 2G/3G/4G/5G coverage
- •Wall, mast or panel mount
- Integrated low loss cable

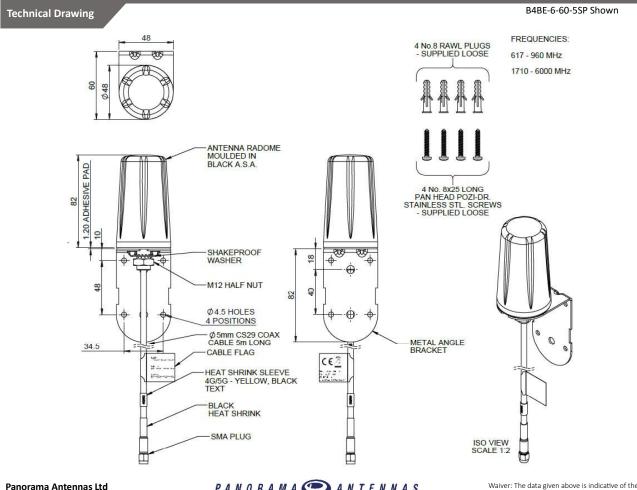

The B4BE[E] antenna is a cost effective omni-directional broad band antenna for 4G/3G/2G and 5G devices from 617-960/1710-6000MHz and is suitable for external or internal installation.

The design of the mounting bracket enables simple wall mounting using the supplied screws and wall plugs or mast mounting using a pipe clip or cable ties (not supplied).

The omni-directional radiation pattern allows easy placement of the antenna in an elevated positon.

The B4BE variant is supplied with integrated 5mm double shielded CS29 coaxial cable while the B4BEE variant is supplied with RG174 cable for shorter cable runs.

This antenna is an ideal solution for use in industrial and domestic environments with cellular modems/routers and Machine to Machine (M2M) wireless connectivity applications.
